U Turn ahead | High Voltage overhead cable | Opening bridge ahead | Road works ahead | Tunnel

Quayside or river bank ahead | Loose chippings | Slippery Road | Speed Hump | Risk of falling rocks

Take extra care when driving near schools, especially at times when children are arriving to start the school day or leaving at the end of the day. These are the busiest periods of the day and children do not have a strong sense of road safety, especially when they are very young. They may cross the road without looking or may already be crossing as you approach. Be aware of the speed limit in the area. It is likely to be lower than the surrounding roads. Flashing lights will also tell you that you are approaching a school.

A sign showing a picture of an animal, such as a camel, warns drivers that animals may be on the road. The symbol on these signs may also represent sheep or goats. Domestic animals are regularly herded across roadways and temporary signs may be displayed leading up to the area where the animals will cross.

Slow down when you see these signs and watch out for animals on the road. Leave as much space as possible to allow for their unexpected movements.

Never use your car horn around animals – it may frighten them and could cause them to run and cause a crash.

Two-way traffic crosses one-way road ahead	Road narrows on the left ahead	Road narrows on both sides ahead	Right lane ends ahead
--	--------------------------------	----------------------------------	-----------------------

Other dangers ahead	Uneven road	Diversion to opposite carriageway ahead	Left-hand lane closed ahead
---------------------	-------------	---	-----------------------------

No through road	Steep hill downwards ahead	Steep hill upwards ahead	Right-hand lane closed ahead
-----------------	----------------------------	--------------------------	------------------------------

### Hazard Marker Signs

Hazard marker signs identify physical hazards, such as a bridge structure, guardrails or traffic islands. The signs below provide some examples of hazard marker signs.

Hazard Plate	Hazard Marker	Single Chevron Right	Single Chevron Left
--------------	---------------	----------------------	---------------------

Multiple Chevron Right	Multiple Chevron Left	T-Junction Chevron
------------------------	-----------------------	--------------------

## Guide Signs

Guide signs provide direction. They include information about route numbers, street names and destinations and are generally in both Arabic and English. These signs:

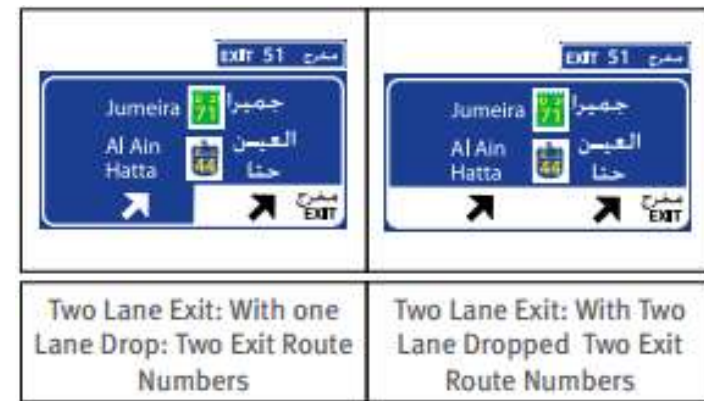

- Enable drivers to find their destinations
- Avoid confusing drivers with too much information
- Present drivers with predictable information
- Give drivers advance notice so that directional changes can be made safely
- The colours that are used in the background of guide signs are:
  - Blue – located on national routes and include the Emirates route emblem
  - Green – located on local Dubai routes and include the Dubai route emblem
  - White – these show local points, roads or destinations
  - Brown – provide additional information including symbols to describe the destination

The signs below are examples of the emblems used on guide signs

Dubai routes	City Centre Central Business District:-	Emirates routes

Dubai International Airport	Freeways	Tourist destination descriptions

Right lane closure ahead	Additional lane added	Lane use is controlled (trucks not permitted in left lane)	Five lanes merging to four lanes	Lane use control directional restriction
Beginning/End of Median		Joining Lane		

## No Parking
